- Never use high pressure cleaning during the 3 days after placing stickers on the car.

Dorothy want a custom «500 DO» sticker for her Fiat 500. She received her package this morning. Here are the instructions "How to Stick" to put this sticker on the Fiat.

STAGE 1 - PERFECTLY CLEAN THE CAR.
Bring the following tools:
- A cutter and tape
- Spatula
- A spray bottle containing water **without soap**

STAGE 2 - Put the sticker to the correct position by using 6 pieces of tape (in orange on the photo).

STAGE 3 - Lift the left half of the adhesive tape up to the central tape.

STAGE 4 - Separate the sticker and the backing.

STAGE 5 - Cut the white paper with the cutter.

STAGE 6 - Spray thoroughly the sticker and bodywork.

STAGE 7 - Paste the sticker and chasing water and bubbles with a spatula.

STAGE 8 - Press more time with the spatula to remove all the bubbles.

STAGE 9 - Remove the 4 remaining pieces of tape.

STAGE 10 - Remove completely the second part of the white support.

STAGE 11 - Spray thoroughly the sticker and bodywork.

STAGE 12 - Paste the sticker and chasing water and bubbles with a spatula.

STAGE 13 - Remove very carefully the transfer film.

STAGE 14 - Be careful not to take off the sticker with the transfer.

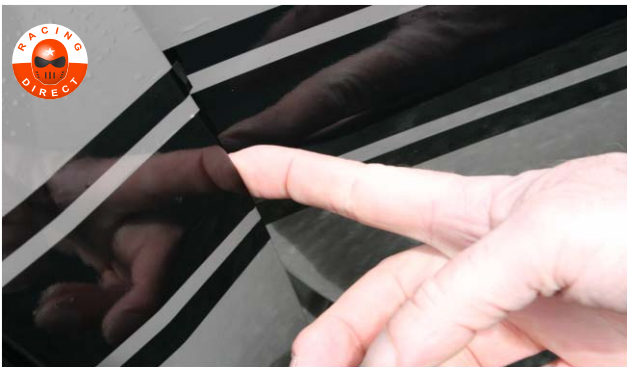

STAGE 15 - Cut part of the sticker that goes beyond leaving a minimum margin of 1".

STAGE 16 - Paste strongly the sticker with your hands.

STAGE 17 - Use the cutter to cut the sticker at the door. Press the cutter on the side of the door and be guided by the door.

STAGE 18 - Open doors and paste the stickers in the joints with the fingers.

FINISH !

The car looking perfect and Dorothy was very happy...
Now, she's ready to buy a nice sunstrip for the 500 ;))

IMPORTANT - IMPORTANT - IMPORTANT
